

Fishers of Man

---Rev. John Mark (Wahab).

The world has turned into a fun! No one is happy. Yet, no room is left to blame the Creator. The human being has been polluted by the earthly things; greed, pride and lust of the flesh.

The merciful God, out of His divine love has exonerated them at the cost of His Son Jesus Christ. This is the GOSPEL, Good News of Salvation. Jesus Christ reiterated that He has come to seek and save what was lost. He did never come to kill and destroy anyone. Though the sinful world has turned the Message into a lucrative commercial commodity, in doing so resulting they have invited unending suffering upon them.

God is shining light, ever shining. He is also holy and total love. Jesus Christ is the pinnacle of love and the roll model of righteousness and forgiveness. The disciples of Jesus Christ equally should be transformed into His likeness to shine all around, being anointed with the light of the world. So, He authorized and asked them to go to all nations with the Message of hope, love, forgiveness and reconciliation back to the holy and righteous Father in heaven.

As like as a net, we should be properly knitted one another in fishing the scattered fishes. Jesus has also prayed to see us united for the glory of our Father in heaven.

Bangladesh is a country of people, 150 million of people, huddling in such a tiny spot in the vast globe. It is our moral obligation to manifest the divine love before them through our lives and activities.

Since 1976 we have been deployed in the vineyard, here in Bangladesh, by the abundant grace of our Father in heaven. We are confident that the divine grace is being poured out constantly through our Lord Jesus. The promised Holy Spirit has always been with us to lead, inspire and urge towards the set goal, the Royal kingdom. Please keep praying for us and for Bangladesh.

The cord of love has bound us together for eternal peace, joy, love and righteousness.
