

Full of life

---Rev. John Mark (Wahab).

Ignorance has divided the unity among humanity! Most of the people have not been informed that they were created in the image of the virtuous God through a single couple, Adam and Eve. So, naturally they feel alien even in the same atmosphere, sharing the same climate and essential supplies of life.

The shining candle must keep itself burning amidst darkness till longevity. An anointed person is not different; he must speak out instead of opposition. The merciful God has provided all essential for our livelihood and outgrowth that we can depend upon Him perfectly.

It must be remarked that, most of the people do suffer with insecurity of life. They either are ignorant or have denied the compassionate hands of the merciful God those are upon them always in every circumstance. It is our moral obligation to make them, brethren around us, aware of the concern and vigilance of God for His best creation. Naturally a question may peep into mind that, to do so, who would remunerate us? In that situation, we must look at the balance sheet of our life. Who has been, so far, faithfully providing our needs for our survival, maintenance and outgrowth? He is the unchangeable God in this changeable world. We have no plea to ignore Him at all.

All of the anointed brethren should assemble together for the glory of our Father in heaven. Let us sail, with the divine power and presence of the Holy Spirit, the evangelical campaign in a dynamic and celestial love for the lost.
