

Love Administer All

---Rev. John Mark (Wahab).

If love does not administer all the humanity, most of the present systems and superstructures would become useless. In that state even banking system, defense and security system, arms and ammunitions would be of no use any more. All the instruments to harass men would not be required; love would solve the misunderstandings among and between them.

We are born and brought up in immorality and spiritual darkness. We have learnt all the twisting mixture of goodness into badness; truth and falsehood influence our personal and social attitude and emotion. We are not free from the influence of the present perverted social and commercial system that has been developed on the gradual practice and slow erosion of morality that is the demand of manhood.

The divine love makes someone a new creation, harmless and beneficial and useful fostering up humanity for the glory of our Father in heaven. Through Jesus Christ the pinnacle of love, perfection, holiness and righteousness were manifested into reality that the earthly man could glimpse. God Himself is love. There is no room for fear in love. The present world is not only developing in arts & technology and monetary trafficking system, but there has also been much progress in brutality, enmity, antagonism and sinful harmfulness. Trust is already withered away. Hard cash is needed for handling-taking over things from one another. Only God can turn this system upside down. In the day of Pentecost, following the anointing of the Holy Spirit on the disciples they were turned into new creations, able to perform on behalf of the Holy One of God.

Originally, man was created in the image and standard of the holy and righteous God. But regretfully, being deceived by the cunning policy of Satan, they lost those divine qualities, and became the stooges of the Satan. At the time of creation they were asked to resist Satan, and to come near to the merciful and holy God; instead, they have resisted the Holy One of God and sided with the dark way of the Devil.

Now, none does dare to think otherwise.

During the deteriorated era of Noah, common people failed to imagine such a devastating flood to wash away all. Though, it is incredible to us, yet that had happened to destroy all futile maneuvers to replace that of the mighty Lord. We are not fortunate or unfortunate enough to witness such a flood, but following cats and dogs for two hours most of the roads and highways turn into flowing cannels. In the 1998 almost seventy percent of the city of Dhaka was inundated for nearly one month. During the Arch of Noah continuous outpouring for 40 days had washed away all the living beings including men. Noah and his family along with pairs of every animal and plants survived in the gigantic ship.

What is the role of money for the survival of the living being? Does any animal need money for its survival and longevity? We need all the natural elements for our life and gradual outgrowth. When we have love for one another we take care of each other.
