

LOVE INTO PRACTICE

Rev John Mark (Wahab)

Of course, love is the highest form of spiritual as well as human faculty that draws someone's affection, attention, care and responsibility upon the deserving person or situation. Love is so strong to convince and influence a person to do good to the beloved person. The living Lord Jesus Christ once asked one of His disciples, named Apostle Peter, whether he had supreme love for the Lord. The Apostle promptly answered positive and assertive. Then the Lord commanded him to love and take care of his followers to help them grow up spiritually for the glory of our Father in heaven. Our Lord asked that question three times to the Apostle and also commanded him to take care of the lambs, always with all sincerity, in His name. Today, He is also asking the same question to all of the believers and demands the same answer and action that the Apostle did deliver. In the context of Bangladesh, we have been applying certain system to introduce the living Lord Jesus Christ to the un-reached people. We have been doing hard to saturate this country with His marvelous life saving teachings so that they may have a chance and ability to get the taste of salvation and eternal life through it. Certainly they must compare the unique teachings to other sorts of religious and social teachings. Since we have been working here, in Bangladesh, for last 25 years, the compassionate God, out of His unlimited mercy, made us rooted in this soil to glorify Him. He made us open to cordially receive, any evangelist, from any corner of the globe, for the sake of His kingdom. Over here harvest is plentiful but the laborers are few by number. We want to share our experience with the new comers in the field. We can assure you that, until now, the field is so open and ripen than imagination. People are very friendly and loving, ready to stretch out hands to assist you. If someone is really filled with and regenerated by the Holy Spirit and sent out by the Lord to evangelize this country, undoubtedly, he would be successful. May we request all of you, earnestly, not to try again, in setting up the table that the Lord did overturn in the temple" We come across so many businessmen who do earn commercial gain in the name of evangelism. Practically they pollute the society spreading mere lies. A light shines in the darkness and people obviously see it even from distance. Those people confuse the new believers in the name of a concocted strategy that is an underground movement for the Lord. Well, faith is a matter of heart. Every believer must conceive and nurture it secretly. It takes root in the hearts, but its impact and impression are manifested in the broad daylight. Those people never stretch their hands of cooperation to the groups that have been involved in the practical evangelical works so long. We can compare them with the Pharisees and Seduces who had passed by the wounded person in the plea of religious duties. It is a matter of regret that, we come across few people, those who verbally claim that the Living Lord calls them out yet they ignore the field and opportunity for the works. They should come forward using all possible means to foster and enhance one another to render more vital fruits. They try to play dual game between the truth and the falsehood. They ask the believers to keep their faith under mask. Anyone may keep the teachings of the Lord apart from the influence of the culture or tradition, but the message must be kept & presented intact. There shouldn't have any tendency to play a sordid game using the life saving message of our Lord. The present Govt. tries her best to implement the constitution that ascertained and assured equal religious rights to all people irrespective of color or caste. Obviously, the Govt.

must be on the alert to detect all sorts of subversive activities, being done, in the name of evangelism or humanism. Dr. Billy Graham wrote that “when you come to Christ, that’s just the beginning, and now you need to live for Him. That means that the dominant feature of your life will be love- love for people next door to you, love for people who live on your block. Whatever the color of their skin, you love them. You go out of your way to be friends with people of other races. That’s how you love.” *Request: Dear esteemed reader, if it goes convenient and suitable for you to pass on this Prayer Bulletin to your friends and missionaries you are at your liberty, please do it. At least they would get an idea of the field of Bangladesh and be able to pray and support for the ongoing evangelical works.*
