

Observing God

---Rev. John Mark (Wahab).

For, as lightning that comes from the east is visible even in the west, so will be the coming of the Son of Man (Mt 24:27).

Dear God fearing brethren, would I ask you a very simple question?

This point came in my mind while I have paid my surprise visit to branch offices under my jurisdiction. Without notice or prior information, when they found my presence in the spot, they completely become embarrassed, perplexed, and almost speechless. But not all the station in-charges hold such a disposition. Those who worked hard, they could welcome me gladly, as if they had been well informed about my visit.

Most of the people believe in the righteous, miraculous, compassionate and sovereign God. They even worship Him regularly as per self-made schedules. Before coming near to Him many people take ablution to cleanse them also. Really, God is awesome holy One and controls the whole universe.

Now, please allow me to raise my question to you. If our God appears before you, would you be embarrassed or immediately welcome Him in your living room? If he would asks to take part in your dinning table, would you be glad to share him without any hesitation? Mind it, he is holy and righteous. He would never compromise with the sinful nature or way of earnings. To test them, their own holiness, He has provided with a code of laws as weighing scale, the Ten Commandments. He himself is clean, so naturally, the fellows must be holy and unblemished.

Do you perceive different descent or indecent, modest or immodest pictures; those are always penetrating in the ether? If you have computer duly connected with internet, you would be able to see odd scenes. The earth produces as it is fertile, so whatever you would plant eventually, you would harvest so.

To see the unseen things there have already been invented so many instruments, and now it is no more dream. The compassionate God has already offered special arrangement so that we can see Him perfectly by our human eyes and also in the eyes of our faith. Jesus Christ is the visible picture of the invisible God.

You are confirmed that he would come soon, may be, even in your life time. At his Second Advent the dead would first raise and go to him at the air, then the living people would be transformed in a twinkling of an eye. Some group of people, guess that following his Second Advent, at least he would reign for one thousands year. It is the hypothesis of the people, but in the revelation, facts are so clearly stated.

It is optimistic scene that many people think of his second advent. We would add more clearly a brilliant fact that He is already amidst us, the people groping in darkness and confusion. He already did pay the cost to pay of our debt to sin by his sinless life. He came to seek and save what was lost. He already commissioned his holy spirit to inspire and lead the regenerated children on to the full truth, and convincing the sinners to come to the repentance and believe in the sacrifice of the sinless Lamb of God the Father.

The **Ten Commandments**, Ten Commandments, convicts all of the people guilty and liable to die in one side, and the other side it leads to the abundant grace of God delivered through Jesus Christ, the unique sinless Lamb of God.

Now it is your option: would you follow a killer, guilty, adulterous and bad people to come to the holy God or a sinless humble person who voluntary laid down even his owe to expiate the sin of the world? Decision is upto you.
