

**The Earth can meet the need of a man,
But it can't satisfy his greed!**

---Rev. John Mark (Wahab).

Why does a person go astray? It is his inborn nature that has been inherited from the fallen nature of the Adam, the first man. Unless he is regenerated by the divine power of the merciful God, he has not at all power to change himself into a new creation.

The ever merciful God, out of His divine love for the lost, has already prepared a special and perfect provision for the whole humanity that they may pass from the eternal death to the unending life with God. Everyone must know and get acquainted to that person and provision while they are in this temporal world. As it is said, all the natural disasters hint the sinners and arrogant to come back to the living, compassionate and merciful Lord duly leaving the sinful activities with heartfelt repentance. The almighty God is righteous. He has vindicated His unfathomable holiness and righteousness through Lord Jesus Christ, the Spirit of God in the human bondage. Any one who has seen Him must be perplexed.
