

## Unique Lord

----Rev. John Mark (Wahab).

Have you ever carried a burning hurricane lantern from one place to another by night time?

I have that experience. It was before electrification of our area. We used hurricane lantern for our study as well as other works by it.

This example has opened my wisdom that none can hide a light or source of light when it is burning. Jesus Christ, so naturally stated that our light must shine the world those are groping in darkness. Jesus Christ is the dazzling light that comes from the Father in heaven. He is also the source of light, always shining, and there is no iota of shadow in Him. The people, who abide in Him by faith, are also entitled and transformed into the light of the world. Naturally, they must constantly shine the world around them and inspire them to be totally transformed into His likeness.

Let us give thanks to the living Lord who has, out of mercy, transformed us into a new creation, granting a new nature in us to the standard of the Father in heaven.

Let us give Him thanks constantly for such a kind of blessed action done to us.

Practically we are His emissaries to represent the holy and righteous Father in heaven.

We must be confident in Him, no power in heaven and on earth or in the deep sea to snatch us from His mighty compassionate hands.
